2022-23 Phase One: Continuous Improvement Diagnostic for Districts

The **Comprehensive District Improvement Plan or CDIP** is defined as a plan developed by the local school district with input of parents, faculty, staff, and representatives of school councils from each school in the district, based on a review of relevant data that includes targets, strategies, activities, and a time schedule to support student achievement and student growth and to eliminate achievement gaps among groups of students.

The comprehensive school and district improvement plan process is outlined in 703 KAR 5:225. The requirements included in the administrative regulation are key components of the continuous improvement process in Kentucky and ultimately fulfillment of school, district, and state goals under the Kentucky State Plan as required by the Every Student Succeeds Act (ESSA).

While the regulation outlines a timeline for compliance purposes, the plan itself is a strategic and proven approach to improve processes and to ensure students achieve. The timeline for the district's 2022-23 diagnostics is as follows:

Phase One: August 1 - October 1

- Continuous Improvement Diagnostic for Districts
- Executive Summary for Districts

Phase Two: October 1 - November 1

- The Needs Assessment for Districts
- District Assurances
- District Safety Report

Phase Three: November 1 - January 1

- Comprehensive District Improvement Plan
- The Superintendent Gap Assurance

Phase Four: January 1 - December 31

- Continuation of Learning Plan for Districts (Due May 1)
- English Learner Plan for Districts (Lau Plan) (Due May 1)
- Professional Development Plan for Districts (Due May 1)
- Progress Monitoring

As superintendent of the district, I hereby commit to implementing continuous improvement processes with fidelity to support student achievement and student growth and to eliminate achievement gaps among groups of students. I also assure that 2022-23 Phase One: Continuous Improvement Diagnostic for Districts - 2022-23 Phase One: Continuous Improvement Diagnostic for Districts - Generated on 01/09/2023

Whitley County

the comprehensive district improvement plan is developed by the district with input from parents, faculty, staff, and where applicable, representatives of school councils from each school in the district, and other appropriate groups pursuant to ESSA Section 1112(a)(1)(A).

2022-23 Phase One: Executive Summary for Districts

Description of the District

Describe the district's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the district serves?

Located in the Cumberland Mountains in southeastern Kentucky, the county has a total of 438 square miles. It is located at least 80 miles from the economic and cultural advantages found in larger cities. The demographic makeup of our area has not changed noticeably over the past five years and includes (according to the U.S. Census): 97% white, 1.0% black, 0.3% Indian, 0.4% Asian, 1.6% Hispanic/Latino, and 1.3% are identified as two races or more. Furthermore, the county has a population of approximately 36,939 people. According to the Bureau of Labor and Statistics, the July 2022 unemployment rate was 4.7%. The U.S. Census reports the median household income for Whitley County is \$39,258, which is well below the Kentucky state average of \$52,238. There is also 81.0% of the county's population that are high school graduates or higher. According to the 2021 - 2022 Qualifying Data Report, 100% of Whitley County's students receive free or reduced lunch. These cultural and economic deprivations are learning barriers our school district must work to overcome. The Whitley County School District, established in 1818, serves students from preschool through grade 12. The schools include one primary, one intermediate, five elementary, one middle, one high, one alternative, and one virtual school. Our district also houses an Adult Education Center that provides service to community members including parents of our students. Our district has contracted with Cumberland River Behavioral Health so that counselors can be housed within certain schools that service students on a daily basis. Each school also utilizes their Family Resource Center/Youth Service Center, as part of their mission, to enhance students' ability to succeed in school by developing and sustaining partnerships that promote early learning and successful transition to school; academic achievement and well-being; and graduation and transition to adult life. The school serve the students, as well as the surrounding communities, and the schools' facilities are used extensively by the community members. The district continues to grow and prosper as seen by the new CTE building being constructed on our central campus. This building will house a carpentry classroom and lab, electrical classroom, and lab, and a JROTC room. Opportunities for post-secondary education are varied, with several universities within the vicinity: University of the Cumberlands, Union College, Eastern Kentucky University - Corbin Campus, and Somerset Community College's Laurel County Campus are all within a 25-mile radius.

District's Purpose

Provide the district's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the district embodies its purpose through its program offerings and expectations for students.

We, the staff of the Whitley County School District, believe that ALL students can learn and that it is our responsibility to ensure ALL students acquire the skills necessary to function as productive citizens in the community. The Whitley County School District Leadership and Instructional Team provides a systemic instructional process which includes: coordinating and providing resources for school Multi-Tiered Systems of Support teams to address academic needs for students; continuing to provide research-based resources for reading, math, science, social studies, and writing; maintaining a system of progress monitoring as evidenced by tools such as progress monitor data, lesson plans, walk through documentation, common assessments, and professional learning communities; building capacity of teachers to utilize the literacy strategies provided by GRREC to meet the cognitive demands of the Reading and Writing Standards; building capacity of teachers to integrate rigorous, engaging mathematical experiences; building capacity of teachers to implement through course tasks, classroom embedded assessments, and claim-evidence-reasoning instruction to meet the cognitive demands of the Next Generation Science Standards; continuing to provide gifted and talented workshops to elementary students to provide enriching lessons and activities that focus on identified gifted areas; address the barriers that homeless children and youth face in enrolling, attending and succeeding in school; and continuing to provide technical assistance and support for schools in software setup: STAR, Accelerated Reader, Study Island, MAP, CERT, AIMSweb Plus, Review 360, Vocabulary A - Z, Amira, IXL, Generation Genius, and other core programs. Academic programs include Reading Recovery, CIM (Comprehensive Intervention Model), Add + Vantage Math Recovery, 21st Century Community Learning Centers, Save the Children Early Steps to Schools Success, GEAR UP Mentoring and Tutoring, College and Career Readiness in math, Reading Intervention at the high school, honors courses, Advanced Placement courses, Dual Credit courses and a College Success Coach. Vocational programs offered through the Corbin Area Technology Center include career pathways focused on automotive technology, electrical technology, emergency management services, engineering and aerospace, health sciences, informational technology, criminal justice, and welding. Vocational programs are also offered through career pathways on campus; these courses include administrative support, allied health, agriculture power, structural and technical systems, business and marketing education, business multimedia, culinary marketing, web development administration, education, engineering, Bio-Med, electrical, welding, and carpentry. Athletic programs include baseball, basketball, softball, fishing, cheerleading, cross country, football, golf, soccer, tennis, track and field, volleyball, wrestling, and eSports. The Whitley County School District offers a diverse curriculum and provides a variety of programs and services designed to meet the needs of ALL students, regardless of race, color, national origin, sex, age, poverty, and disability. The Whitley County School District's Comprehensive Improvement Plan is data driven and based on results from state assessments, district assessments, universal screener, common assessments, surveys, etc. Test results are disaggregated into subgroups to highlight celebration points and areas to target for needed assistance and support. The district leadership team analyzes district level data to pinpoint assistance and support improvement efforts in the areas of curriculum, instruction, and assessment. Comprehensive student support services are coordinated through 21st Century Community Learning Centers, Title I, Save the Children (including CHANGE, Reading and Literacy, Math Literacy, Kindergarten Readiness, and Early Steps to School Success programs), Special

Education, Gifted and Talented, Family Resource/Youth Service Centers, alternative education, early childhood programs, adult and community education, and dropout prevention. Classroom teachers regularly differentiate instruction based on student achievement and success in a safe, secure, and nurturing environment for teaching and learning. All schools in the district have implemented professional learning communities (PLC) that focus on student learning through three major components: curriculum, instruction, and assessment. The format for the professional learning communities follows a process of continuous improvement that incorporates planning, implementation, analysis of results, and next steps to move students learning forward. Supported by district coaches, each school analyzes its own student performance data and uses the results to drive instruction and improvement plans. Every school offers various opportunities for students in arts and humanities, physical education, practical living, and technology that are embedded in the curriculum. The Whitley County School District is committed to providing a safe, supportive environment to meet the individual needs of all students to ensure students are transition ready. The district provides various supports and opportunities for our students to achieve at high levels and become successful. Our belief is that early intervention, progress monitoring, and continued support will prepare our students for success with graduation, college, career, and life. We envision providing our students a learning experience in which all students achieve proficiency.

Notable Achievements and Areas of Improvement Describe the district's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the district is striving to achieve in the next three years.

The technology to student ratio is 1 to 1 for all students in grades K - 12. All teachers have a Chromebook and a paid Zoom account in which they can hold Zoom sessions with their classes and record those sessions for students and parents to watch (if needed). All classrooms are equipped with ViewSonic Interactive Boards/ Panels, OptiPlex 5080 desk top computers, and document cameras. Our Chief Information Officer is an Apple Certified Support Professional, Apple Certified Technical Coordinator, and Microsoft Certified. The Whitley County Director of Pupil Personnel also serves on the KDE Safe Schools Advisory Committee. The committee looks at Infinite Campus data and safe school data that must be reported to the state and looks at best practices and informs school districts of the best practices. The Whitley County School District received several grants that are assisting our schools with instruction and intervention. The district is in the second year of the Kentucky Comprehensive Literacy Grant, first year of professional learning implementation, to help provide literacy professional learning and a literacy rich environment from birth to 12th grade. Seven of our elementary schools received the Read to Achieve (RTA) grant which provides professional learning about reading intervention in small groups, individual, or collaborative setting to students in kindergarten through 3rd grade. Our district also has seven full sites, one at each elementary school, of Save the Children. These extensive grants have several components: In-School Literacy (Reading and Math), After-School Literacy, Healthy Choice, Early Steps to School Success, Basic Sponsorship Education, Community

Engagement, and Kindergarten Readiness. All seven of our elementary schools, our middle school, and our high school have also received the 21st Century Community Learning Center grants which provides academic intervention and enrichment activities along with youth development activities. Clubs are offered throughout the school year and during the summer. Clubs focus on academics, physical education, and leadership. Educational services and skill building activities are offered to family members of participating students to further engage parents in their student's learning and achievement goals. Our district is also in the 2nd year of the GEAR UP Grant through Berea College. This grant focuses on college and career readiness and provides tutoring, counseling, mentoring, and guidance to students in the 8th grade. The grant will follow this cohort of students through their journey of high school and into their first year of college. We have also continued to work with the sheriff's department on the Cops School Violence Prevention Program Grant. The school district has also continued to partner with Save the Children in the Rural Accelerator Initiative focused on 3rd grade reading. The Whitley County School District has also received the McKinney-Vento Grant, the Stewart B. McKinney Homeless Grant, and the American Relief Program SBM Homeless Grant. All three of these grants will assist our district in providing needed services to our students who qualify as homeless. Our district also continues to have the Grow Your Own Grant that created the pathway for our high school students who are interested in becoming an educator. The district improvement committee consist of School Based Decision-Making Councils (SBDM), curriculum planning committees, KyCL teacher cohort, AIMSweb Plus, Review 360, Study Island school leaders, and professional learning communities. The district provides systemic teacher evaluations for professional growth. Sixth grade transition activities occur as a collaboration between our elementary schools and our middle school. Technology continues to be developed and updated to meet the district's teaching and learning needs.

Additional Information

Districts Supporting CSI/TSI (including ATSI) Schools Only: Describe the procedures for monitoring and providing support for (a) CSI/TSI school(s) so as to ensure the successful implementation of the school improvement plan.

Whitley County High School has been identified as a TSI school. The district initially will meet with the school to discuss the status of the classification. A timeline will be established that will serve as checkpoints for monitoring. The school will develop a TSI Committee that will meet with the district team. The district team will work closely with the TSI Committee to develop a process along with stages to develop a school improvement plan. The district team will provide support to the TSI team with utilizing the Key Core Work Processes tool to determine root causes and inequities; internal program audit; analyzing data for students with disabilities (our subgroup); and identifying evidence-based interventions. A 30-60-90 plan will be developed. The district will monitor the plan and will meet with the TSI Committee monthly for updates and needed support.

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

The Whitley County School District employees five instructional coaches and a technology integration specialist who coordinate educational programs to ensure student and teacher success. The coaches provide support and guidance in continued application of the Kentucky Academic Standards. They offer support and job-embedded professional learning through co-teaching, professional learning communities, and professional learning sessions. They provide teachers and administrators with instructional needs and interventions as needed. They also coordinate and facilitate reading and math nights, involving parents and community members in academic activities. Four of the instructional coaches are participating in the New Teacher Center Foundational Institute for Coaches through SESC. Four of the instructional coaches and four teacher leader/coaches are also participating in the Deeper Learning Coaching Initiative. One of our instructional coaches serves on the 21st Century Community Learning Center State Advisory Board. One instructional coach serves as chairperson of the Whitley County Rural Accelerator Initiative and the Leadership Table, and another instructional coach serves as the vice chairperson. The district provides a variety of services for students with disabilities and for teachers of special needs students. Whitely County maintains a partnership with higher education organizations and the local college to train preservice teachers and to ensure the success of new and intern teachers. Four instructional coaches oversee the Colonel Teacher Internship Program for new teachers. This program meets monthly, and the teachers are provided with instructional strategies that can be used in the classroom. The Whitley County School District also maintains community outreach initiatives to improve student success by connecting with their environment. The Whitley County McKinney-Vento Homeless Liaison helps identify students who lack basic life necessities. The program helps to eliminate these and other non-instructional barriers to learning. The liaison also serves on the board for the local homeless shelter. Another community-based program is the Parents As Volunteer Educators (PAVE), which recruits parents and coordinates their efforts to assist in the schools, working with teachers and students. Adult education programs, including GED assistance, are provided free of charge by the school district. Save the Children initiatives and programs target at-risk students early in life and offer academic and motivational activities. Through a federal grant award, the school district provides free breakfast and lunch to all students. The Whitley County School District Public Relations Department keeps the community informed about school news and programs. All of the preschool centers int the Whitley County School District received a 5 KY All-STARS rating. The IROTC unit at WCHS has been recognized as "Honor of Distinction" since 1993. There have been 59 high school students selected as Governor's Scholars over the last 13 years and there are over 398 historical members of the National Honor Society. During the 2022 Senior Honors Night, there were approximately \$620,000 awarded in one-year scholarships and \$2,400,000 awarded in four-year scholarships. One high school student attended the Gatton Academy. Two students earned an associate's degree from the University of the Cumberlands upon graduation from WCHS. We are currently completing the construction of a new Career and Technical Education facility.

2022-23 Phase Two: The Needs Assessment for Districts	3
Attachment Summary	13

2022-23 Phase Two: The Needs Assessment for Districts Understanding Continuous Improvement: The Needs Assessment for Districts

The Needs Assessment Diagnostic will facilitate the use of multiple sources of data to determine the current reality and establish a foundation for decision-making around district goals and strategies. Once completed, the diagnostic will lead to priorities to be addressed in the comprehensive district improvement plan to build staff capacity and increase student achievement. The needs assessment is to be conducted annually as an essential part of the continuous improvement process and precedes the development of strategic goals (i.e. desired state).

While the focus of continuous improvement is student performance, the work must be guided by the aspects of teaching and learning that affect performance. An effective improvement process should address the contributing factors creating the learning environment (inputs) and the performance data (outcomes).

The needs assessment provides the framework for all districts to clearly and honestly identify their most critical areas for improvement that will be addressed later in the planning process through the development of goals, objectives, strategies and activities. 703 KAR 2:225 requires, as part of continuous improvement planning for districts, each district to complete the needs assessment between October 1 and November 1 of each year and include: (1) a description of the data reviewed and the process used to develop the needs assessment; (2) a review of the previous plan and its implementation to inform development of the new plan; and, (3) perception data gathered from the administration of a valid and reliable measure of teaching and learning conditions.

Protocol

1. Clearly detail the process used for reviewing, analyzing and applying data results to determine the priorities of this year's needs assessment. Include names of district leadership teams and stakeholder groups involved, a timeline of the process, the specific data reviewed, and how the meetings are documented.

The Whitley County School District developed the needs assessment and data process in conjunction with the district leadership team, school leadership teams, district program directors, Whitley County Board of Education members, and community stakeholders. These various partners share a vision that students and community come first in our district. We also share a common goal of continuous improvement that will result in success for all learners. Our district uses multiple forms of data available for review and analysis, focusing on three major domains: leadership capacity, learning capacity, and resource capacity. These domains domains target conditions that are necessary to support organizational effectiveness and improve student performance. The capacity of leadership consists of progress toward objectives and includes fidelity and commitment to its purpose and direction; the effectiveness of governance and leadership; the ability to engage stakeholders; and the capacity to implement strategies to improve learner and educator performance. The impact of teaching and learning is built upon a culture of high expectations for learning along with quality programs and

cognia

Whitley County

services which includes an analysis of results. The use of resources ensures alignment and equitable distribution to effectively address needs and support for professional learning for all staff as well as examining the allocation and use of resources to establish appropriate levels of funding, sustainability, and effectiveness.

The Whitley County School District implements a comprehensive assessment system the produces data about student learning and system effectiveness and uses the results to guide continuous improvement. The data sources that focus on student performance include Kentucky Summative Assessment, ACT, Post-Secondary Readiness, MAP, CERT, TEDS, common assessments, IOWA Assessment, Brigance data, MTSS/RTI and progress monitoring data, Individual Learning Plans (ILPs), and principal walk-through observations. Sources of learning environment data include Impact Kentucky Survey results, principal walk-through observations, professional growth plans, professional development surveys, Family Resource/ Youth Service Center data, and Parents as Volunteer Educators (PAVE) data. System efficiency data includes superintendent walk-through data, informal site visits, school and district leadership team minutes, budgets, and financial data.

The district planning team meets frequently to analyze and discuss assessment data and concentrates on the following questions:

- In what subject areas are we performing well?
- What are our areas of strength?
- Where are our gaps? In what subgroups do they exist?
- What grade levels are performing well in the areas of reading, math, science, social studies, and writing?
- Are there emerging trends in the data? If so, where do they exist? What are the trends revealing?
- What specific Kentucky Academic Standards do we need to identify for improvement?
- Are we demonstrating progress with continuous improvement goals and strategies? Where should we focus our efforts?
- Are our students demonstrating growth from district assessments to state assessments? What needs from the subgroups do we need to target for support? How do we focus our efforts on those students who are not demonstrating growth? How do we enrich learning for students to encourage growth?
- What program areas need support to assist with our whole child approach?
- What percent of our students are college and/or career ready? What percentage are academic ready? What percentage are career ready? How should we focus our efforts so students are prepared to succeed in the next stage of their lives?
- What career and technical education areas are our students receiving certification? What areas do we need to focus on? What standards do we need to target according to trend data?

- How are English Learners progressing? Are there barriers we need to identify and remove to increase the success of these students? What resources will assist in this endeavor?
- What percent of our students are graduating within 4 years? Within 5 years? What do the trends indicate? Are there barriers we need to identify and remove to increase the graduation rate of these students?
- What improvements do we need to make in regards to Educating All Students; Feedback and Coaching; Managing Student Behavior; Professional Learning; Resources; School Climate; School Leadership; and Staff-Leadership Relationships?

In addition to answering these questions, we examine our alignment with the Kentucky Board of Education Delivery Targets through the evaluation of the Key Core Work Processes:

- Design and Deploy Standards What should students know and be able to do? Is curriculum taught at a high level of fidelity? How do teachers adjust the curriculum content and pasting to meet students' needs based on formative and summative assessments? Is it effective? Is our protocol for reviewing and revising the curriculum effective in meeting our curricular needs?
- Design and Deliver Instruction How will they learn it? Is our protocol for ensuring instructional needs are met through Tier I and Tier II effective? How do we ensure that appropriate and effective high yield strategies are implemented and are effective?
- Design and Deliver Assessment Literacy How will we know if they have learning it? Have we ensured that our assessment system is balanced? Are we continuing to use appropriate assessment design that best evaluates the level of student learning? Are teachers using feedback effectively? How well are students communicating and evaluating their progress and setting learning goals?
- Review, Analyze, Apply Data Results How will we know if they have learning it? Have we ensured that assessments are high quality and aligned to the rigor of the standards? How is student data being used to drive instruction? Are students achieving mastery with the standards? Are we redoing the number of students scoring novice?
- Design, Align, and Deliver Support Process What will we do if they know it already, don't know it, or need other support? Are our processes for monitoring behavioral and academic interventions effective? Can we identify and involve stakeholders to assist in improvement planning and measuring progress toward our goals?
- Establish Learning Culture and Environment What will we do if they know it already, don't know it, or need other support? How are we ensuring that all classrooms are culturally responsive to students' needs? How do we develop educator capacity and ensure that all educators are successful? Are we effectively addressing barriers to learning with students and parents?

Whitley County

Under the guidance of our Superintendent and Deputy Superintendent, the Whitley County Schools District Leadership Team assists our schools with additional support, communicate district-wide expectations and policies, and obtain substantial stakeholder involvement to support academic achievement and growth of all our students. District instructional coaches provide regular assistance and support to all schools as wells as maintain curriculum resources and highlight best practices in reading and writing, math, science, and social studies. Reports from curriculum, assessments, and instructional programs including Study Island, MAP, common assessments, AIMSweb, Accelerated Reader, Amira, STAR Reading and Math, STAR Early Literacy, IXL, CERT, etc. are utilized and reviewed for implementation, support, and impact on student learning and achievement. Data disaggregation occurs through weekly PLC meeting and scheduled flex time with the Plan, Do Study, Act Protocol. Principals present data results, improvement plans, delivery targets, and next steps to their School-Based Decision Making (SBDM) Councils. Additionally, principals present this information to the members of the Whitley County Board of Education. Progress monitoring is common practice through implementation and impact checks as they are part of the SBDM agendas. Regular monitoring and support are provided through the district leadership team. Teachers continue to utilize the Google Classroom platform for teaching and learning with their students.

Review of Previous Plan

2. Summarize the implementation of the goals, objectives, strategies and activities from the previous year's Comprehensive District Improvement Plan (CDIP). What was successful? How does it inform this year's plan?

The Whitley County School District reviewed the implementation of the goals, objectives, strategies, and activities of the previous years' Comprehensive District Improvement Plan (CDIP). One success is our overall performance rating for the elementary and middle school level was rated "high" and the high school level was rated "medium". The indicators in reading, math, science, social studies, and combined writing were rated high at the elementary and high school level. The elementary level received a rating of very high for the climate and safety survey indicator. This success can be attributed to the following:

- A district instructional coach assigned to each school who provides support through PLCs
- Intensive data review and analysis
- Focus on barriers to eliminate social and emotional obstacles
- District and school-wide MTSS teams
- Accelerated instruction with intervention and enrichment supports
- · Deeper learning initiative targeting student engagement
- · Literacy initiative to leverage content in math, science, and social studies

Whitley County

After looking through the post-pandemic lens, our current status is not to the district's high level of standard. Upon reflection, we are looking at goals and data from pre-pandemic years to guide the current CDIP and reflect future changes that ensure high student achievement and success.

Implementation from the previous plan serves as a framework for the development of the current district improvement plan. The district is developing a plan that will be based on this framework while making additions that will strengthen it and prepare students for the future.

Trends

3. After analyzing data trends from the previous two academic years, which academic, cultural and behavioral measures remain significant areas for improvement?

Example of Trends

• The number of behavior referrals increased from 204 in 2020-21 to 288 in 2021-22.

• From 2020 to 2022, the district saw an 11% increase in novice scores in reading among students in the achievement gap.

The Whitley County School District has compared data trends from the previous two academic years. However, it is important to note that in 2020-2021, data from the school report card was reported by school/district enrollment/participation. School report card data from 2021-2022 was reported based on accountability using the 100-day rule.

At the elementary level, the percentage of students scoring proficient/distinguished in reading increased by 17% from 40% to 57%. In math, the percentage of students scoring proficient/distinguished improved from 23% to 52%, an increase of 29%. The percentage of students scoring proficient/distinguished in science increased from 28% to 46%, a gain of 18%. In combined writing, the percentage of students scoring proficient/distinguished slightly increased from 41% to 44%, a gain of 3%.

At the middle school level, the percentage of students scoring proficient/ distinguished in reading increased from 47% to 52%, a gain of 5%. In math, the percentage of students scoring proficient/distinguished improved from 29% to 46%, an increase of 17%. The percentage of students scoring proficient/distinguished in science increased 3%; the exact percentages are suppressed. In combined writing, the percentage of students scoring proficient/distinguished decreased from 65% to 48%, a decline of 17%.

At the high school level, the percentage of students scoring proficient/distinguished in reading increased by 13% from 34% to 47%. In math, the percentage of students scoring proficient/distinguished increased 12%; the exact percentages are suppressed. The percentage of students scoring proficient/distinguished in science decreased 12% from the prior year (data is suppressed for 2021-22). In combined

writing, the percentage of students scoring proficient/distinguished decreased from 64% to 46%, a decline of 18%. The average graduation rate slightly decreased from 94.5% to 92.6%, a decline of 1.9%.

Based on the trend data from the last two years, our largest gains have been in math proficiency, specifically at the elementary level (+29%). The average gain across all levels in math is 19%. Based on trend data, an area for improving proficiency is in combined writing. While the elementary level made a small gain in writing proficiency, the middle school and high school levels have declined. The average percentage of decline for writing proficiency is 18%. At the elementary level, the percentage of students scoring novice significantly decreased in all subject areas. At the middle school level, the percentage of students scoring novice decreases in the percentage of students. This level had slight increases in the percentage of novice in math and writing. At the high school level, math had a significant decrease in the percentage of students scoring novice while science had a significant increase in the percentage of students scoring novice. This trend data indicates that an area for targeted improvement in decreasing the percentage of novice students is in science at the high school level.

Trends indicate that the percentage of students with behavior events increased from an average of 1.3% from the prior year to 7.6%, an increase of 6.3%. The largest categories of events are in harassment/bullying (17.9%), tobacco (47.0%), and other events resulting in state resolutions (28.9%). According to the Teacher Working Conditions data, the percentage of favorable results increased in School Climate from 72% to 75%, a gain of 3%; in Managing Student Behavior from 77% to 81%, and increase of 4%; and in School Leadership from 70% to 77%, a increase of 7%. Trend data indicates that according to the Quality of School Safety and Climate Survey that our biggest concern is students being hurtful online/internet bullying.

Current State

4. Plainly state the current condition of the district using precise numbers and percentages as revealed by multiple sources of outcome data. Cite the source of data used.

Example of Current Academic State:

• Thirty-four percent (34%) of students in the achievement gap scored proficient on Kentucky Summative Assessment (KSA) in reading.

• Fifty-four percent (54%) of our students scored proficient in math compared to the state average of 57%.

Example of Non-Academic Current State:

• Teacher attendance rate was 84% for the 2021-22 academic year

• Survey results and perception data indicated 74% of the district's teachers received adequate professional development.

Whitley County

Our Whitley County's School Report Card reports the percentage of students scoring novice, apprentice, proficient, and distinguished for all students assessed in our district. At the elementary level, 57% of students scored proficient/distinguished in reading; 52% in math; 46% in science; 46% in social studies; and 44% in combined writing. At the middle school level, 52% of students scored proficient/distinguished in reading; 46% in math; 31% in science; 39% in social studies, and 48% in combined writing. At the high school level, 47% of students scored proficient/distinguished in reading; 35% in math; science data was suppressed; 33% in social studies; and 46% in combined writing. The data also displayed the average ACT Composite score was 18.2 with an English score of 18.2; reading at 18.8; math at 17.2; and science at 18.2. The percentage of students meeting benchmarks in English is 53%; 45% in reading; and 28% in math. Our average 4 year and 5 year graduation rate stands at 92.6%. The composite score for the Brigance screener shows that 40% of students are ready for kindergarten. Our scores for the domains show that 22% of students scored average or above in the Academic/Cognitive domain; 76% in the Language Development domain; 46% in the Physical Development domain; 40% in the Self-Help domain; and 71% in the Social Emotional domain. According to the Quality of School Climate and Safety Survey, the elementary data was suppressed for the survey. 95% of middle school students and 85% of high school students agree/ strongly agree that their school is a caring place. 89% of high school students and 92% of middle school students say they feel safe in their classes. Data also shows that 15% of students participated in dual credit courses. School report card reports that our district served 3,863 students in which 79.6% are economically disadvantaged; 29% are identified as students with disabilities; and 8.3% are considered homeless. Our retention rate for grades 4 - 12 is 1.24% and our dropout rate is at 0.7%. Teacher data from the School Report Card shows that we have 280 full-time equivalent teachers. Our student to teacher ratio stands at 14:1. We have 12.5% of teachers identified as inexperienced with 3 years or less experience; 2.55 are nationally board certified teachers; and 7.5% hold emergency or provisional certificates. Our teacher turnover rate is 19.8%. The educator gualifications shows that our teachers hold the following credentials: 16.4% Bachelor's; 38.4% Master's; 43.7% Rank I; and 1.5% Specialist. The average years of school experience is 13.5%. The Teacher Working Conditions from the Impact Survey show the following favorability: School Climate - 75%; Managing Student Behavior - 81%; and School Leadership - 77%. Equity data shows that 22.8% of students are taught by out of field teachers and 38.7 of students are taught by inexperienced teachers.

The high school has been identified for Targeted Support and Improvement (TSI). This means the high school has one or more student subgroups, as Identified by the Every Student Succeeds Act (ESSA), whose performance in the state accountability system is at or below the summative performance of students in any of the lowest performing five percent (5%) of all school. The identification is for students with disabilities.

Priorities/Concerns

5. Clearly and concisely identify the greatest areas of weakness using precise numbers and percentages.

NOTE: These priorities will be thoroughly addressed in the Comprehensive District

Whitley County

Improvement Plan (CDIP) diagnostic and template.

Example: Sixty-eight percent (68%) of students in the achievement gap scored below proficiency on the Kentucky Summative Assessment (KSA) in reading as opposed to just 12% of non-gap learners.

One area of concern is the achievement gaps among various groups. At the elementary level, 68% of non-economically disadvantaged students scored proficient/distinguished in reading compared to 54% of economically disadvantaged students. In math, 59% of male students scored proficient/distinguished compared to 45% of female students. 64% of non-economically disadvantaged students scored proficient/distinguished in math compared to 49% of economically disadvantaged students. In science, 54% of males scored proficient/distinguished compared to 38% of females. In writing, 54% of non-economically disadvantaged students scored proficient/distinguished compared to 42% of economically disadvantaged. At the middle school level, 67% of non-economically disadvantaged students scored proficient/distinguished in reading compared to 48% of economically disadvantaged students. In math, 59% of males students scored proficient/distinguished compared to 45% of females. 64% of non-economically disadvantaged students scored proficient/distinguished in math compared to 49% of economically disadvantaged. In science, 39% of the non-economically disadvantaged students scored proficient/distinguished compared to 28% of the economically disadvantaged students. In writing, 80% of the non-economically disadvantaged students scored proficient/distinguished compared to 40% of the economically disadvantaged students. At the high school level, 66% of the noneconomically disadvantaged students scored proficient/distinguished in reading compared to 42% of the economically disadvantaged students. In math, 50% of the non-economically disadvantaged students scored proficient/distinguished compared to 31% of the economically disadvantaged students. In writing, 59% of female students scored proficient/distinguished compared to 36% of the male students; 69% of the non-economically disadvantaged students scored proficient/ distinguished compared to 37% of the economically disadvantaged students. The scores for science were suppressed at the high school level.

Strengths/Leverages

6. Plainly state, using precise numbers and percentages revealed by current data, the strengths and leverages of the district. Explain how they may be utilized to improve areas of concern listed above.

Example: Reading achievement has increased from 37% proficient to its current rate of 58%. The systems of support we implemented for reading can be adapted to address our low performance in math.

The Whitley County School District's most remarkable strength is our personnel. Our teachers have developed a growth mindset that has translated to improvements in instructional practice. We have incorporated professional learning communities (PLCs) which have contributed to closing achievement gaps brought

Whitley County

about by the pandemic. Our structure of PLCs has enabled us to focus on student learning, collaboration, and data driven instruction. The variety and scope of course offerings at the middle and high school level have expanded greatly due to our focus on the alignment and sequence of pathways offered through our Career and Technical Education (CTE) programs. Opportunities for students have increased as we have added pathways in the following: health science, engineering, welding, carpentry, electrical, and the teaching and learning. We secured the Kentucky Comprehensive Literacy (KyCL) grant for our district and the Read to Achieve grant for every elementary school that will continue our focus on improving literacy skills for our students. As a district, we have increased student exposure to technology through the purchase of chromebooks that are implemented as one-to-one in kindergarten through the twelfth grade.

At the elementary level, we are improving proficiency in all subject areas while reducing the percentage of students scoring novice. Our greatest proficiency gain of 29% was in math while reading improved 17% and science improved 18%. While our elementary proficiency rates are not where they were pre-pandemic, the proficiency rates for math and science doubled and the reading proficiency rate greatly improved from the prior year. At the middle school level, proficiency slightly increased in reading (+5%) and science (+3%) with the greatest improvement in math (+17%). At the high school level, the proficiency rates for reading and math greatly increased. Reading proficiency increased by 13% and math proficiency increased by 17%. The number of students scoring novice in math decreased by 11%. The average score for all areas of the ACT improved 1.5 to 18.2; Math score improved 0.1 to 17.2; and Science score improved 0.3 to 18.2. The overall composite score improved 0.7 to an average score of 18.2. Our district's average score of 18.2 in English, exceeded the state average score of 17.5.

Evaluate the Teaching and Learning Environment

7. Consider the processes, practices and conditions evident in the teaching and learning environment as identified in the six Key Core Work Processes outlined below:

KCWP 1: Design and Deploy Standards
KCWP 2: Design and Deliver Instruction
KCWP 3: Design and Deliver Assessment Literacy
KCWP 4: Review, Analyze and Apply Data
KCWP 5: Design, Align and Deliver Support
KCWP 6: Establishing Learning Culture and Environment

Utilizing implementation data, perception data, and current policies and practices:

a. Complete the Key Elements Template.

b. Upload your completed template in the attachment area below.

After analyzing the Key Elements of your teaching and learning environment, which

Whitley County

processes, practices or conditions will the district focus its resources and efforts upon in order to produce the desired changes?

Note that all processes, practices and conditions can be linked to the six Key Core Work Processes.

NOTE: These elements will be thoroughly addressed in the Comprehensive District Improvement Plan (CDIP) diagnostic and template.

1- Deployment of Standards-Curriculum team meetings focus on curriculum alignment to state standards and components that support instruction and assessment. Instructional coaches will continue to assist teachers with deep understanding and rigor of the Kentucky Academic Standards; developing learning targets; and utilizing formative and summative assessment data. 2-Delivery of Instruction-Within professional learning communities, teachers discuss lessons and implementation of high yield strategies that will meet the intent of the learning standards. Student "watch lists" are developed for students needing additional Tier 2 and 3 instruction. Individual learning plans are developed for these students and intervention strategies are outlined and discussed. 3-Assessment Literacy-Teachers along with instructional coaches are emphasizing assessment for learning strategies where data is used formatively to drive instruction. Students are enabled to take responsibility for their own learning by setting personal goals. Common assessments are aligned to standards and implemented district wide. Teachers analyze student data from common assessments and provide detailed feedback to students. 4-Review, Analyze, and Apply Data Results-Our schools have implemented data walls, data notebooks, or data tracking systems in order to drill down to individual students. In professional learning communities, teachers collectively analyze school data to make informed decisions, determine priorities for individual student success, and improve practice. 5-Design, Align, and Deliver Support Processes with Sub-Group Focus-The Whitley County School District has an instructional leadership team led by the Deputy Superintendent that ensures that continuous improvement is based on data to improve processes that support student learning. This team aligns resources to needs to ensure all systems work together for success, and they continually monitor student data regularly. 6-Establish a Learning Culture and Environment-The Whitley County School District ensures that each school's culture and environment optimizes student learning and creates support for positive behavior. The instructional leadership team is focusing efforts on creating and developing growth mindsets as well as implementing instruction for students of poverty that is research and evidence-based.

2022-23 Phase Two: District Assurances Introduction

Assurances are a required component of the CDIP process (703 KAR 5:225). Please read the assurance and indicate whether your district complies by selecting the appropriate response (Yes, No or N/A). If you wish to provide further information or clarify your response, space for comments is provided. Comments are optional. You may upload any supporting documentation as needed.

District Assurances

The district hereby ensures that the FY 2022-2023 District Funding Assurances have been signed by the local superintendent, submitted to the Kentucky Department of Education, and remain on file with the local board of education.

2022-23 Phase Two: District Safety Report 3	3
· · · · · · · · · · · · · · · · · · ·	

2022-23 Phase Two: District Safety Report District Safety Report

Pursuant to KRS 158.162, the local board of education shall require the school council or, if none exists, the principal in each school to adopt an emergency plan that must be utilized in case of fire, severe weather, earthquake, or a building lockdown and that: establishes evacuation routes; identifies the best available severe weather zones; develops earthquake protocols for students; and, develops and adheres to practices controlling access to the school building. The emergency plan shall be annually reviewed by the council, principal, and first responders and revised as needed.

In addition to the emergency plan requirements in KRS 158.162, KRS 158.164 requires the local board of education to direct the school council or, if none exists, the principal in each school to establish procedures to perform a building lockdown and to invite local law enforcement to assist in establishing lockdown procedures.

KRS 158.162 also requires the emergency plan be discussed with all school staff prior to the first instructional day of the school year and provided, along with a diagram of the facility, to appropriate first responders. Further, the principal in each school shall conduct, at a minimum, the following emergency response drills within the first 30 instructional days of the school year and again during the month of January: one severe weather drill, one earthquake drill, and one lockdown drill. In addition, required fire drills shall be conducted according to administrative regulations promulgated by the Department of Housing, Buildings and Construction.

Finally, pursuant to KRS 158.162, local Superintendents must submit verification to the Kentucky Department of Education that all schools are in compliance by November 1 each year. This diagnostic is the means by which this reporting requirement is fulfilled.

Questions Related to the Adoption and Implementation of the Emergency Plan

1. Has the local board adopted a policy requiring the school council or, if none exists, the principal in each school to adopt and implement an emergency plan as required by KRS 158.162?

Please reference the appropriate board policy number(s) and/or title(s) in the comment box. 5.4 Safety

2. Has each school council or, where applicable, principal adopted an emergency plan in accordance with local board policy and in compliance with the specifications in KRS 158.162(3)?

If all schools in the district have NOT met the requirement, respond "no" and please explain further in the comment box. Please note that Senate Bill 1 (2019) and Senate Bill 8 (2020) amended KRS 158.162(3)(d) to require, for example, classroom doors remain closed and

locked during instructional time as well as classroom doors with windows be equipped with material to quickly cover the window during a building lockdown. Schools are encouraged to comply with these changes as soon as practicable but, if needed, have until July 1, 2022 to fully implement. Accordingly, failure to comply with KRS 158.162(3)(d), as amended, shall be reported for the 2022-2023 school year and each year thereafter.

Yes

3. Has each school provided local first responders with a copy of the school's emergency plan along with a diagram of the school as required by KRS 158.162(2)(b)?

If all schools in the district have NOT met the requirement, respond "no" and please explain further in the comment box.

Yes

4. Has each school posted primary and secondary evacuation routes in each room by any doorway used for evacuation as required by KRS 158.162(3)(a)?

If all schools in the district have NOT met the requirement, respond "no" and please explain further in the comment box.

Yes

5. Has each school posted the location of severe weather safe zones in each room as required by KRS 158.162(3)(b)?

If all schools in the district have NOT met the requirement, respond "no" and please explain further in the comment box.

Yes

6. Have practices for students to follow during an earthquake been developed as required by KRS 158.162(3)(c) and is a copy maintained on file for review?

If all schools in the district have NOT met the requirement, respond "no" and please explain further in the comment box.

Yes

7. Are practices in place to control access to each school building, including but not limited to controlling outside access to exterior doors during the school day; controlling the main entrance of the school with electronically locking doors, a camera, and an intercom system; controlling access to individual classrooms; requiring classroom doors to remain closed and locked during instructional time (with limited exceptions outlined in statute); requiring classroom doors with windows to be equipped with material to quickly cover the windows during a lockdown; requiring all visitors to report to the front office of the building, provide valid identification, and state the purpose of the visit; and providing a visitor's badge to be visibly displayed on a visitor's outer garment as required by KRS 158.162(3)(d)?

If all schools in the district have NOT met the requirement, respond "no" and please explain further in the comment box.

Yes

8. Was each school's emergency plan reviewed following the end of the <u>prior</u> school year by the school council, principal, and first responders and revised as needed as required by KRS 158.162(2)(c) and is a copy maintained on file for review?

Please provide the most recent date of review/revision of the emergency plan for each school in the district in the comment box. If all schools in the district did NOT meet the requirement, respond "no" and please explain further in the comment box. Yes.

Boston Elementary July 2022 Whitley East Elementary July 2022 Pleasant View Elementary August 2022 Oak Grove Elementary July 2022 Whitley North Elementary August 2022 Whitley Central Intermediate August 2022 Whitley County Central Primary July 2022 Whitley County middle School August 2022 Whitley County alternative August 2022

9. Did each principal discuss the emergency plan with **all** school staff prior to the first instructional day of the <u>current</u> school year and appropriately document the time and date of such discussion as required by KRS 158.162(2)(d)?

Please provide the date each school in the district completed this discussion in the comment box. If all schools in the district have NOT met the requirement, respond "no" and please explain further in the comment box.

All Schools - August 9, 2022

10. During the first 30 instructional days of the <u>current</u> school year, did the principal in each school within the district conduct at least one severe weather drill, one earthquake drill, and one lockdown drill as required by KRS 158.162(5) and were drills logged in the current drill log?

If all schools in the district did NOT meet the requirement, respond "no" and please explain further in the comment box.

Yes

11. During the month of January during the <u>prior</u> school year, did the principal in each school within the district conduct at least one severe weather drill, one earthquake drill, and one lockdown drill as required by KRS 158.162(5) and were drills logged in the appropriate drill log and maintained on file?

If all schools in the district did NOT meet the requirement, respond "no" and please explain further in the comment box.

Yes

12. Over the immediately preceding twelve months, did each school within the district conduct fire drills in accordance with administrative regulations promulgated by the Department of Housing, Buildings and Construction as required by KRS 158.162(5)?

If all schools in the district did NOT meet the requirement, respond "no" and please explain further in the comment box. Yes

2022-23 Phase Three: Comprehensive District Improvement Plan

Rationale

District improvement efforts are a collaborative process involving multiple stakeholders. During the improvement planning process, leaders focus on priority needs, district funding, and closing achievement gaps between identified subgroups of students. When implemented with fidelity, the Comprehensive District Improvement Plan (CDIP) cultivates an environment that promotes student growth and achievement.

While the focus of continuous improvement is student performance, the work must be guided by the aspects of teaching and learning that affect performance. An effective improvement process should address the contributing factors creating the learning environment (inputs) and the performance data (outcomes).

Using the Comprehensive District Improvement Plan Template The template is a complement to the Needs Assessment for Districts. Using your determined priorities, you will set both short- and long-term targets and outline the activities intended to produce the desired changes.

a. Develop your Strategic Goals using the <u>Comprehensive District Improvement Plan Template</u>.b. Upload your completed Comprehensive District Improvement Plan in the attachment area below.

Summarize the plan of action developed through your goal setting process.

Describe which objectives and strategies will be maintained and which will be added or modified to address current needs as outlined in your needs assessment diagnostic, especially those of any identified gap groups.

Each year, as new assessment data is received and disaggregated, the Whitley County School District reviews the CDIP and adds, adjusts, and modifies our goals, objectives, and strategies as identified in our local Needs Assessment. All objectives for the state assessment and graduation rate have been updated based on our current needs. The transition readiness objective has been modified to reflect the new terminology of post-secondary readiness. Objectives have been added that target improvement in our climate index score and our safety index score based on results from the Quality of School Climate and Safety survey. The achievement gap objectives have been maintained at the elementary and middle school level in which the economically disadvantaged gap group was the focus. The achievement gap objective for the high school level includes students with disabilities as part of the Targeted Support and Improvement classification. All key core work processes have been addressed within our CDIP: Goals and Plans.

2022-23 Whitley County CDIP Goals and Plans

Operational Definitions

Goal: Long-term three- to five-year targets based on the six (6) required district goals: proficiency, separate academic indicator, achievement gap closure, graduation rate, growth, and transition readiness. Long-term targets should be informed by the Needs Assessment for Districts.

Objective: Short-term target to be attained by the end of the current academic year. There can be multiple objectives for each goal.

Strategy: An approach to systematically address the process, practice, or condition that the district will focus its efforts upon, as identified in the Needs Assessment for Districts, in order to reach its goals or objectives. There can be multiple strategies for each objective. The strategy can be based upon Kentucky's six (6) Key Core Work Processes listed below or another established improvement approach (i.e. Six Sigma, Shipley, Baldridge, etc.).

Key Core Work Processes: A series of processes identified by the Kentucky Department of Education that involve the majority of an organization's workforce and relate to its core competencies. These are the factors that determine an organization's success and help it prioritize areas for growth.

KCWP 1: Design and Deploy Standards KCWP 2: Design and Deliver Instruction KCWP 3: Design and Deliver Assessment Literacy KCWP 4: Review. Analyze and Apply Data KCWP 5: Design, Align and Deliver Support KCWP 6: Establishing Learning Culture and Environment

Activity: Actionable steps used to deploy the chosen strategy. There can be multiple activities for each strategy.

Measure of Success: Criteria that shows the impact of the work. The measures may be quantitative or qualitative but are observable in some way.

Progress Monitoring: Process used to assess the implementation of the plan, the rate of improvement, and the effectiveness of the plan. Should include timelines and responsible individuals.

Funding: Local, state, or federal funds/grants used to support (or needed to support) the improvement initiative.

Requirements for Building an Improvement Plan There are seven (7) required district goals:

- State Assessment Results in reading and mathematics
- State Assessment Results in science, social studies and writing

Comprehensive District Improvement Plan (CDIP)

Rationale

District improvement efforts are a collaborative process involving multiple stakeholders. Through the improvement planning process, leaders focus on priority needs, district funding, and closing achievement gaps among identified subgroups of students. When implemented with fidelity, the Comprehensive District Improvement Plan (CDIP) cultivates an environment that promotes student growth and achievement.

While the focus of continuous improvement is student performance, the work must be guided by the aspects of teaching and learning that affect performance. An effective improvement process should address the contributing factors creating the learning environment (inputs) and the performance data (outcomes). Through the Needs Assessment for Districts, priorities were identified and processes, practices, and/or conditions were chosen for focus. This goal building template will assist your improvement team to address those priorities and outline your targets and the activities intended to produce the desired changes. Progress monitoring details will ensure that your plan is being reviewed regularly to determine the success of each strategy.

Requirements for Building an Improvement Plan

- There are seven (7) required district goals:
 - o State Assessment Results in reading and mathematics
 - o State Assessment Results in science, social studies and writing
 - o Achievement Gap
 - o English Learner Progress
 - o Quality of School Climate and Safety
 - Postsecondary Readiness
 - o Graduation Rate

Explanations/Directions

Goal: Districts should d	etermine long-term goals th	at are three to five yea	ar targets for each requ	ired district level indicator. Lon	g-term targets
should be informed by	The Needs Assessment for [Districts.			
Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
Districts should determine short-term objectives to be attained by the end of the current academic year. There can be multiple objectives for each goal.	Describe your approach to systematically address a process, practice, or condition that was identified as a priority during the Needs Assessment for Districts. There can be multiple strategies for each objective. The strategy can be based upon <u>Kentucky's six (6) Key</u> <u>Core Work Processes</u> or another established improvement approach (i.e. <i>Six Sigma, Shipley, Baldridge, etc.</i>).	Describe the actionable steps that will occur to deploy the chosen strategy. There can be multiple activities for each strategy.	List the criteria that will gauge the impact of your work. The measures may be quantitative or qualitative but are observable in some way. Consider measures of input as well as outcomes for both staff and students.	Describe the process used to assess the implementation of the plan, the rate of improvement, and the effectiveness of the plan. Your description should include the artifacts to be reviewed, specific timelines, and responsible individuals.	List the specific federal, state, or local funding source(s) used to support each improvement initiative.

1: State Assessment Results in reading and mathematics

Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
Objective 1 Increase reading proficiency for all elementary students from 57% to 62%, middle school students from 52% to 57%, and high school students from 47% to 52% by 2023.	Design and Deploy	A. Identify and disseminate instructional resources aligned to the Kentucky Academic Standards (KAS); provide technical assistance and support to schools in software setup and use for technology programs including STAR, Accelerated Reader, Study Island, myON, MAP, Aimsweb, IXL, Edulastic, HMH Ed platform, CERT, Mastery Prep, Simple Solutions, and other core programs	District Report Card, program usage and mastery reports	8/2022 – 5/2023 Principals, Instructional Coaches, and Superintendents	ESSER funds, Save the Children, Gear Up
	Standards	B. Coordinate and facilitate elementary reading nights involving parents and community members in academic activities aligned to KAS	Sign in sheets	8/2022 – 5/2023 Principals, Instructional Coaches, and Superintendents	Title I
		C. Provide monthly seminars with enriching lessons and activities for elementary students identified as gifted and talented; Provide enrichment activities for middle and high school students as requested	District Report Card, GT reports	8/2022 – 5/2023 GT Coordinator, Superintendents	GT funds
	Review, Analyze, and Apply Data	A. Examine student data including KSA, MAP, IOWA, STAR, CERT, and common assessment data to identify gaps and make necessary	District Report Card, district assessment reports	8/2022 – 5/2023 Principals, Instructional Coaches, and Superintendents	No funding needed

Assist and support teachers with strategies and activities for classroom behavior management plans and individual student behavior plans	District Report Card, Behavior data, Review 360 reports, principal walkthrough data	8/2022 – 5/2023 Principals, Superintendents, Director of Special Education, School Psychologists	No funding needed
		D. Assist and support school administrators with suggestions and activities that demonstrate care and support of students	District Report Card, Behavior data, Review 360 reports	8/2022 – 5/2023 Principals and Superintendents	No funding needed
	E. Facilitate training for positive behavior intervention supports and monitor implementation	PD sign-in sheets, principal walkthrough data	8/2022 – 5/2023 Principals, Superintendents, Director of Special Education	PD funds	
<u>Objective 2</u> Increase the district Safety index score for the elementary level from 81.9 to	Establish Learning Culture and Environment	A. Assist with and approve school emergency and safety plans	School emergency and safety plans	8/2022 – 5/2023 Principals, Superintendents, Director of Safe Schools	No funding needed

Increase the district Safety in Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
86.9; the middle school level from 69.4 to 79.4; and the high school level from 70.8 to 80.8 by 2023.	B. Support principals with safety protocols and checklist for walkthroughs regarding risk assessment	Risk assessment results, Director of Safe School walkthroughs	8/2022 – 5/2023 Principals, Superintendents, Director of Safe Schools	No funding needed	
	C. Perform informal walkthroughs regarding safety protocols and communicate results with the principal	Risk assessment results, Director of Safe School walkthroughs, Program Manager PLC minutes	8/2022 – 5/2023 Principals, Superintendents, Director of Safe Schools	No funding needed	
		D. Review school risk assessment results and communicate with the principal	Risk assessment results, Program Manager PLC minutes	8/2022 – 5/2023 Principals, Superintendents, Director of Safe Schools	No funding needed
		E. Assign School Resource Officers to schools through the partnership with the Whitley County Sheriff's Office	SRO school assignments	8/2022 – 5/2023 Principals, Superintendents, Director of Safe Schools	Title IV, General Fund
	F. Continue awareness and assessment of out-of-district threats and safety issues and communicate to principals	Risk assessment results, Program Manager PLC minutes	8/2022 – 5/2023 Principals, Superintendents, Director of Safe Schools	No funding needec	
	G. Provide KnoxBoxes at each school for easy access for first responders during emergency situations	Routine risk assessment monitoring, principal walkthroughs/drill checklist	8/2022 – 12/2022 Principals, Superintendents, Director of Safe Schools	General Fund	

6: Postsecondary Readiness

Objective	Strategy	Activities	Measure of Success	Progress Monitoring	Funding
Objective 1 Increase the percentage of students who are post- secondary ready (non- duplicated academic and career – including high demand) from 75% to 80% by 2023.		A. Utilize the Early Warning and Persistence to Graduation Tools to target needed interventions for at- risk students who are not meeting benchmarks	IC reports	8/2022 – 5/2023 Principals, Instructional Coaches, Superintendents	No funding needed
	Review, Analyze, and Apply Data	B. Analyze from KSA, CERT, ACT, Career and Technical End-of- Program (CTE-EOP), Advanced Placement (AP), etc. assessment results to determine instructional gaps	District report card, district reports, TEDS reports, ACT reports	8/2022 – 5/2023 Principals, Instructional Coaches, Superintendents	No funding needed
	Design, Align, and Deliver	A. Provide access to resources related to academic and career advising and post-secondary readiness; Develop and maintain policies which allow students to enroll in dual credit courses offered on-site and on the college campus; Provide access and training for teachers who receive AP training	District report card, district reports, TEDS reports, ACT reports	8/2022 – 5/2023 Principals, Instructional Coaches, Superintendents	PD funds
	B. Develop partnerships with businesses within our community to assist with work experience and work skill development related to career pathways C. Monitor/approve the use of Perkins funds to purchase/upgrade	Partner agreements	8/2022 – 5/2023 Principals and Superintendents	No funding needed	
		C. Monitor/approve the use of	Perkins plan and MUNIS reports	8/2022 – 5/2023 Superintendents	Perkins funds

Objective 2					

Special Considerations for Districts with Targeted Support and Improvement (TSI) including Additional Targeted Support and Improvement (ATSI) Schools

Districts with a school identified for TSI (including ATSI) must monitor and provide support to the school to ensure the successful implementation of the school improvement plan (703 KAR 5:280(10)). The local board of education must review and approve the revised school improvement plan for TSI (including ATSI) schools (KRS 160.346(4)(a)).

Monitoring and Support

Consider: Describe the district's plan for monitoring and supporting the school improvement plan of any school identified for TSI/ATSI. Include in your response information regarding the process for local board review and approval.

Response:

The Whitley County High School presented their Comprehensive School Improvement Plan (CSIP) and Targeted Support and Improvement Plan (TSI) plan to the members of the Whitley County Board of Education during the December monthly meeting on December 15, 2022. Malorie Cooper initiated the approval of the TSI plan, and Brenda Hill seconded the motion. All members agreed and approved the plan.

The district is performing impact checks monthly as part of the monitoring of the TSI plan. During the meetings, the administration will update the district team as to its progress regarding the plan's implementation. Updates will include implementation, progress toward goals, deadlines, additional activities, outcomes, and results. The district team provided support initially by assisting with the development of the plan. The district team will now assist with supporting the implementation of strategies/activities, removing barriers, and providing meaningful feedback. The district administration team will monitor school leadership through formative components that include walkthroughs, informal communications, and collaborative school and district meetings. Summative components include the reflective practice and professional growth plan monitoring, site visits, and the summative evaluation of the principal.

2022-23 Phase Three: The Superintendent Gap Assurance

This district-level report fulfills KRS 158.649(9), which requires superintendents to report to the Commissioner of Education any school within the district that fails to meet its targets to reduce the gap in student achievement for any student group for two consecutive years.

The school-based decision making council, or the principal if no council exists, is required to set the school's yearly targets for eliminating any achievement gap. These targets can be found on the Comprehensive School Improvement Plan template for each school. When determining which schools did and did not meet their targets, the superintendent should review the achievement gap objectives (short-term targets) from the previous two years found on the planning template.

Gap Target Assurance

As superintendent of the district, I hereby certify either:

• No school within my district failed to meet its targets to reduce the gap in student achievement for any student group for both of the last two (2) consecutive years.

o Pursuant to KRS 158.649(9), one or more school(s) in my district failed to meet its targets to reduce the gap in student achievement for any student group for both of the last two (2) consecutive years. If this option is selected, completion of this assurance is contingent on the name(s) of any school being reported pursuant to KRS 158.649(9). Superintendents selecting this option, must complete the supplemental form hyperlinked below.

2022-23 Phase Four: Professional Development Plan for Districts for School Year 2023-2024

The purpose of this diagnostic is to support the district in designing and implementing a professional development plan that aligns to the goals established in <u>KRS 158.6451</u> and the local needs assessment. The basis of the professional development plan aligns to <u>704 KAR 3:035</u>, which states the following:

Annual Professional Development Plan:

Section 2. Each local school and district shall develop a process to design a professional development plan that meets the goals established in <u>KRS 158.6451</u> and in the local needs assessment. A school professional development plan shall be incorporated into the school improvement plan and shall be made public prior to the implementation of the plan. The local district professional development plan shall be incorporated into the district improvement plan and posted to the local district Web site prior to the implementation of the plan.

Section 3. Each school and local district professional development plan shall contain the following elements:

1. A clear statement of the school or district mission

2. Evidence of representation of all persons affected by the professional development plan

3. A needs assessment analysis

4. Professional development objectives that are focused on the school or district mission, derived from the needs assessment, and specify changes in educator practice needed to improve student achievement; and

5. A process for evaluating impact on student learning and improving professional learning, using evaluation results

Research demonstrates a positive link between high-quality professional learning (HQPL), teaching practices and student outcomes. Effective professional learning not only has the potential to improve both classroom instruction and student outcomes, but also it can be effective in recruiting and retaining teachers. When designing and/or selecting HQPL at the local level, it is important to ensure alignment to the characteristics of <u>High-Quality Professional</u> <u>Learning</u>.

1. What is the district's mission?

We, the staff of the Whitley County School District, believe that ALL students can learn and that it is our responsibility to ensure ALL students acquire the skills necessary to function as productive citizens in the community. The Whitley County School District is committed to providing a safe, supportive environment to meet the needs of all students to ensure students are post-secondary ready. The district provides various supports and opportunities for our students to achieve at high levels and become successful. Our belief is that early intervention, progress monitoring, and continued support will prepare our students for success with 2022-23 Phase Four: Professional Development Plan for Districts for School Year 2023-2024 - 2022-23 Phase Four: Professional

Development Plan for Districts for School Year 2023-2024 - Generated on 05/06/2023 Whitley County

graduation, college, career, and life. We envision providing our students with a learning experience in which all students achieve proficiency.

2. The needs assessment provides the framework for **all** districts to clearly identify their most critical areas for improvement that will be addressed in the planning process through the development of goals, objectives, strategies, and activities.

Based on the most critical areas for improvement identified in the completed needs assessment per <u>703 KAR 5:225</u> (3), what are the district's **top two focus areas** requiring professional development that support continuous improvement? The critical areas should focus on the needs assessment findings.

The most critical areas for improvement identified in the completed needs assessment include: (1) increasing student achievement at the proficiency and distinguished levels while decreasing the number of students scoring at the novice level, and (2) closing the achievement gap for economically disadvantaged students and students with disabilities.

3. How do the identified **top two focus areas** requiring professional development relate to district goals?

Our Comprehensive District Improvement Plan (CDIP) addresses our top two priorities for professional development as part of our district goals and objectives. Under the goals for the State Assessment Results in the content areas, we will focus on the strategies of designing and delivering instruction as well as designing and deploying standards to address the academic achievement of our students. Our district initiatives focus on literacy instruction and student engagement. Our second priority of closing the achievement gap is addressed within the State Assessment Results goals within the strategies of designing, aligning, and delivering instruction; designing, aligning, and delivering support; and establishing the learning culture and environment. This priority will also fall under the objectives for addressing the achievement gap through the strategies of designing, aligning, and delivering instruction and reviewing, analyzing, and applying data.

4a. For the first focus area, what are the **specific** objectives for the professional development aligned to the district goal(s)? Consider the long- and short-term changes that need to occur in order to meet the goal.

The Whitley County School District plans to continue to implement evidence-based instructional strategies to increase student engagement and improve student achievement. This will be evidenced by an increase in the percentage of students scoring at the proficient and distinguished levels and a decrease in the percentage of students scoring at the novice levels. Implemented activities include engagement, differentiation, intervention, and enrichment.

2022-23 Phase Four: Professional Development Plan for Districts for School Year 2023-2024 - 2022-23 Phase Four: Professional

Development Plan for Districts for School Year 2023-2024 - Generated on 05/06/2023

Whitley County

4b. What are the intended results of the professional development as related to the specific objectives in (a)? (student outcomes; educator beliefs, practices, etc.)

Teacher practice will be improved and enhanced through professional learning focused on student engagement, differentiation, intervention, and enrichment strategies. Effective teacher practice will result in improved student achievement and success.

4c. How will professional development be monitored for evidence of implementation? i. What data (student work samples, grade-level assessments, classroom observations, etc.) will be considered and gathered?

ii. Who is responsible for gathering data? (teachers, coaches, administrators, etc.) iii. How frequently will data be analyzed? (monthly, quarterly, etc.).

The professional development will be monitored for evidence of implementation in a variety of ways. Teacher walk-through data, lesson plans, student work analysis, common district assessment data, MAP data, STAR data, progress monitoring data, Kentucky Summative Assessment data, IOWA Assessment data, and MTSS data will be analyzed for teacher implementation and successful student outcomes. Data will be gathered by teachers, instructional coaches, interventionists, principals, and assistant principals. Ongoing data collection will include teacher walk-through data, lesson plans, and progress monitoring data will occur frequently and be analyzed weekly/monthly. Student work analysis, common district assessment data, and MTSS data will be analyzed weekly through PLCs. MAP and STAR data will be analyzed three times a year. KSA and IOWA Assessment data will be analyzed once results are received and used to drive continued improvement.

4d. What will be the indicators of success? Consider the completed actions or markers that need to occur that would indicate the goals and objectives have been achieved.

Please describe in detail.

One indicator of success for teachers includes the level of attainment of professional growth goals in the area of improved teacher practice as indicated in teachers' individual growth plans. Another indicator of success involves teacher evaluation. Teachers will earn a rating of advanced or accomplished for the evaluation category of Planning and Environment. For students, the indicators of success will include proficiency levels on STAR, MAP, IOWA, KSA, Science Through Course Tasks, and district summative assessments.

4e. Who is the **specific** targeted audience for the professional development? (i.e., elementary mathematics teachers)

Teachers, instructional staff, district instructional coaches, principals, and students will be impacted by professional development focused on improving teacher practice.

2022-23 Phase Four: Professional Development Plan for Districts for School Year 2023-2024 - 2022-23 Phase Four: Professional Development Plan for Districts for School Year 2023-2024 - Generated on 05/06/2023 Whitley County

4f. What **specific** resources are needed to support the professional development? (staff, funding, technology, **specific** instructional resources, professional development support from vendors, release time for professional learning, etc.)

Resources needed to support professional development focused on improving teacher practice include funding, time, and materials. Grants along with collaboration with our cooperatives, Southeast South-Central Educational Cooperative (SESC) and Green River Regional Educational Cooperative (GRREC) will assist in providing needed funding for professional consultants, training, and materials. On-going support will be provided through teacher leaders, deeper learning coaches, and district instructional coaches.

4g. What **specific** ongoing supports will be provided for professional development implementation? (i.e., district level coaches will work with teacher teams monthly as professional development is implemented, building level coaches will lead monthly professional learning communities using instructional resources from professional development, teacher leaders will meet bi-monthly to analyze student work based on evidence from professional development, release time for groups of teachers to plan together using specific instructional resources, a mathematics consultant to meet once a month with grade level math teacher teams September through April, etc.) The ongoing supports should be connected to the specific professional development identified as the priority.

Ongoing support for the implementation of professional learning to improve teacher practice includes weekly professional learning communities, coaches through deeper learning, and coaching through district instructional coaches.

5a. For the second focus area, what are the **specific** objectives for the professional development aligned to the district goal(s)? Consider the long- and short-term changes that need to occur in order to meet the goal.

Teachers will be provided training focused on teaching students of poverty, homeless students, and students with disabilities. Teachers will implement instructional strategies including building vocabulary, using mental models, using rubrics for student self-evaluation, engaging students, and relating content to careers.

5b. What are the intended results of the professional development as related to the specific objectives in (a)?

Teacher practice will be improved and enhanced through professional learning focused on teaching strategies that are geared specifically toward students of poverty, homeless students, and students with disabilities. Effective teacher practice will result in improved student achievement and success.

2022-23 Phase Four: Professional Development Plan for Districts for School Year 2023-2024 - 2022-23 Phase Four: Professional

Development Plan for Districts for School Year 2023-2024 - Generated on 05/06/2023

Whitley County

5c. How will the professional development be monitored for evidence of implementation?

i. What data (student work samples, grade-level assessments, classroom observations, etc.) will be considered and gathered?

ii. Who is responsible for gathering data? (teachers, coaches, administrators, etc.) iii. How frequently will data be analyzed? (monthly, quarterly, etc.)

Professional development will be monitored by principals and instructional coaches for evidence of implementation through work samples, common assessments, data from STAR, MAP, classroom observations, and walkthroughs. This monitoring will be discussed weekly during PLCs and as assessment data becomes available.

5d. What will be the indicators of success? Consider the completed actions or markers that need to occur that would indicate the goals and objectives have been achieved.

Please describe in detail.

The indicators of success include improving the proficiency rate in all subjects for economically disadvantaged students and students with disabilities. The achievement gap will be greatly reduced along with the percentage of students in these gap groups that are scoring at the novice level.

5e. Who is the **specific** targeted audience for the professional development impacted by this component of professional development? (i.e., elementary mathematics teachers)

The target audience for professional development focused on closing the achievement gap for economically disadvantaged students and students with disabilities includes teachers, instructional assistants, interventionists, assistant principals, and principals.

5f. What **specific** resources are needed to support the professional development? (staff, funding, technology, **specific** instructional resources, professional learning support from a vendor, release time for professional learning, etc.)

Resources needed to support professional development include training focused on specific instructional strategies for teaching students of poverty, homeless students, and students with disabilities.

5g. What **specific** ongoing supports will be provided for professional development implementation? (i.e., district level coaches will work with teacher teams monthly as professional development is implemented, building level coaches will lead monthly professional learning communities using instructional resources from professional development, teacher leaders will meet bi-monthly to analyze student work based on evidence from professional development, a mathematics consultant to meet once a month with grade level math teacher teams September through April, etc.) The ongoing 2022-23 Phase Four: Professional Development Plan for Districts for School Year 2023-2024 - 2022-23 Phase Four: Professional

Whitley County

supports should be connected to the specific professional development identified as the priority.

Ongoing support for the implementation of professional learning for closing the achievement gap for economically disadvantaged students and students with disabilities includes coaching through district instructional coaches, coaching with deeper learning coaches, and continuous improvement processes through professional learning communities.

6. Optional Extension: If your district has identified additional professional development priorities you would like to include, you may upload an attachment with the answers to question 3 and a-g as seen in questions 4 and 5. If you do not wish to include an optional extension, please list N/A in the space provided below.

2022-23 Phase Four: English Learner Plan for Districts (Lau Plan)

To meet the requirements of Title VI of the Civil Rights Act of 1964 and the Equal Educational Opportunities Act of 1974, all districts will develop a local plan for providing services to English learner (EL) students. All districts must have a plan in place, regardless of current EL enrollment.

The school district's EL plan is commonly referred to as a Lau Plan, in reference to the 1974 Lau v. Nichols Supreme Court case in which the Court ruled students cannot be denied access in and participation in an educational program due to inability to speak or understand English. The Court ordered that districts must take affirmative steps to overcome educational barriers faced by non-English speaking students.

By completing these assurance statements districts are documenting that the district Lau Plan contains each of the required components and has been recently reviewed by the appropriate stakeholders and is easily available to the general public. In addition to completing the assurances, the district Lau Plan **must** be uploaded as an attachment.

Choose Yes or No for each statement and upload the district Lau Plan as an attachment.

Lau Plan Component Assurances

Please confirm that each required component has been included in the district's Lau Plan. Note: Additional information may be included in the plan at the discretion of the district.

1. Names of the Lau Plan team members

```
• Yes
```

o No

2. Guiding principles of the Lau Plan

```
• Yes
```

o No

3. Procedures for enrollment, identification, and placement of ELs in a Language Instruction Educational Program (LIEP)

• Yes

o No

4. Description of the LIEP

• Yes

2022-23 Phase Four: Continuation of Learning Plan for Districts (Implemented 2023-24 School Year)

The purpose of this diagnostic is to support the district in designing and implementing a plan for a continuation of learning during times when non-traditional instruction may need to be implemented in order to prevent a loss of learning. The basis of the continuation of learning plan comes from <u>KRS 158.070(9)</u> and <u>701 KAR 5:150</u>, which state the following:

KRS 158.070(9):

Notwithstanding any other statute, each school term shall include no less than the equivalent of the student instructional year in subsection (1)(f) of this section, or a variable student instructional year in subsection (1)(h) of this section, except that the commissioner of education may grant up to the equivalent of ten (10) student attendance days for school districts that have a non-traditional instruction plan approved by the commissioner of education on days when the school district is closed for health or safety reasons. The district's plan shall indicate how the non-traditional instruction process shall be a continuation of learning that is occurring on regular student attendance days. Instructional delivery methods, including the use of technology, shall be clearly delineated in the plan. Average daily attendance for purposes of Support Education Excellence in Kentucky program funding during the student attendance days granted shall be calculated in compliance with administrative regulations promulgated by the Kentucky Board of Education.

701 KAR 5:150, Section 1(5):

"non-traditional instruction plan" means the strategy approved by the commissioner and implemented by a local school district to ensure instruction on non-traditional instruction days is a continuation of learning that is occurring on regular student attendance days as required by KRS 158.070(9).

Based on the most critical areas for improvement identified in the completed needs assessment per <u>703 KAR 5:225</u>, Section 3(2)(b), what are the district's plans for implementing non-traditional instruction to provide a continuation of learning during times (both short-term and long-term) when in-person instruction may not be feasible and to support continuous improvement?

District Assurances for Continuation of Learning Plan:

The District assures:

1. Instruction on days designated as Non-Traditional Instruction (NTI) Days when the school district is closed to in-person instruction will be a continuation of the learning occurring on in-person student attendance days.

2. It utilizes a learning management system to make instructional design more adaptable for NTI Days.

3. It's primary delivery method on NTI days shall be digital. The district further assures that it will make every effort to ensure all students have both access to a device and to the internet.

4. Agreements have been reached with other educational entities that service the district's students (i.e. area technology centers, other dual credit institutions, regional schools) to ensure

2022-23 Phase Four: Continuation of Learning Plan for Districts (Implemented 2023-24 School Year) - 2022-23 Phase Four:

that the district's students are not penalized when the district uses an NTI day.

5. The district will continue instruction, support and communication with all students on NTI days to ensure academic progress as well as social and emotional well-being are not negatively impacted on NTI days.

6. All teachers have received adequate professional learning to ensure they are prepared to facilitate instruction on NTI days.

7. All staff will follow their normal work schedules on NTI days.

8. Agreements have been reached with community partners (i.e. libraries, community centers, churches) to enhance delivery of services on NTI days.

9. Participation will be recorded for all students on NTI days.

10. Has a written plan in place to communicate information related to NTI days.

Please enter the name of the district superintendent and date below to certify.

John L. Siler

1. What is the district's plan to ensure a continuation of learning will occur when inperson instruction is not feasible and non-traditional instruction is implemented?

The Whitley County School District is deeply vested in maintaining the ongoing development and delivery of a quality NTI program. For the 2022-2023 school year, our district plans to offer instruction the is primarily digitally-based during NTI days. At the onset of the 2020-2021 school year, Whitley County Schools achieved a oneto-one Chromebook ratio for students in kindergarten through 12th grade. Our district will use a combination of on-line, performance-based, email and web-based instructional programs/projects along with other available teacher communication tools to ensure the continuation of student learning in the event of short-term or long-term school closures. Teachers will utilize Google Classroom, Zoom, Remind, Infinite Campus (Campus Learning) and other technology platforms to provide instruction and communication. Our teachers have embedded digitally-based instruction within their traditional instruction for several years, and students have been utilizing personal technology devices in classrooms as instructional aid. Both our teachers and students are very familiar with the technology platforms and digital teaching tools. Teachers will have electronic forms of assignments to share with parents upon request. Learning packets will also be available for parent and student access on the school district's web page. If available, mobile hotspots will also be used by students who do not have reliable internet service. For students in kindergarten through 12th grade who digital accessibility remains limited, the instructional process begins with the NTI learning packets. These packets are developed and approved prior to the beginning of the school year. The learning packets will be sent home with students at the beginning of the school year for use during NTI days. Additionally, teachers will augment their instruction with a range of approaches to include performance-based projects and alternative learning activities that are not digitally based. NTI learning packets and performance-based assignments will be reviewed, graded, and student feedback given accordingly. Students will also have the option of utilizing a jump drive that has lessons and

Whitley County

assignments loaded. Students will complete work and save their work to the jump drive and return the jump drive to their teacher.

2. How will the district ensure a continuation of learning on non-traditional instruction days for students with Individual Education Plans (IEPs) when in-person instruction is not feasible? Please also address how the Admissions and Release Committee (ARC) will be involved for students with IEPs.

The Whitley County School District will ensure a continuation of learning for students with IEPs when in-person instruction is not feasible by following the district's policies and procedures for providing a free and appropriate public education. Through the implementation of Individual Education Plans (IEPs) for students with disabilities, services will be rendered using a multitude of methodologies. The Admissions and Release Committees (ARCs), Central Office Personnel, Itinerant Personnel and School-Based Personnel will work closely with individual parents before the implementation of NTI days to develop the best method for the delivery of instruction and accommodations needed for the individual students with disabilities during NTI days. Additionally, the way weekly student progress is evaluated will be discussed. These delivery methods and accommodations will be documented in the student's IEP. Central Office Personnel, Itinerant Personnel, Special Education Teachers, and Related Service Providers will maintain daily electronic logs of the services provided to students during NTI days. This log will be completed at the end of the NTI day by the school staff and be monitored by the district's central office special education staff. The log will include the date, time, methods, and nature of the services provided. This information will also be documented within Infinite Campus.

3. How will the district ensure a continuation of learning on non-traditional instruction days for other special populations of students, including, for example, English Language Learners with a Program Services Plan (PSP), students with a Gifted Student Services Plan (GSSP), and students placed in alternative education programs served by the district?

The Whitley County School District will ensure a continuation of learning for other populations of students through the implementation of student specific educational plans for 504, English Language Learners, and Gifted Students utilizing various resources such as Google Classroom, Infinite Campus (Campus Learning), and other means of instructional delivery. NTI day instruction for 504, ELL, and Gifted Students will resemble a traditional school day with differentiated and specialized instruction, as described in their 504 Accommodation Plan, PSP, and/or GSSP. During professional learning, teachers and staff of the Whitley County School District will receive updated and ongoing training on Google Classroom, Infinite Campus (Campus Learning Suite), and other instructional delivery methods. These resources will provide teachers the ability to access and review specific learning plans for special student populations. These learning platforms will give teachers the ability to specialize and provide feedback to each child when providing 2022-23 Phase Four: Continuation of Learning Plan for Districts (Implemented 2023-24 School Year) - 2022-23 Phase Four:

Whitley County

instruction. All specialized student learning will continue on NTI days. Student case managers and program facilitators will work with teachers before, during, or after NTI days to prepare and provide resources to ensure a continuation of learning.

4. How does the above non-traditional instruction plan providing for a continuation of learning relate to district goals?

Our ultimate goal is found in our mission statement for the Whitley County School District: "We, the staff of the Whitley County School District, believe that all students can learn. It is our responsibility to ensure that all students acquire the essential skills necessary for them to function as productive citizens." Our other district goals for our students are focused on achieving proficiency in reading, math, science, editing and mechanics, writing, and social studies; closing the achievement gaps; maintaining/increasing our graduation rate, and increasing the percentage of students who are post-secondary ready. In order to make progress toward these goals, our non-traditional instructional plan must include access to learning for all students through both virtual platforms and learning packets. During short-term and long-term closures, instruction will be aligned to the appropriate grade level curriculum map that focuses on the Kentucky Academic Standards for each content area to ensure a continuation of learning. This focused instruction will provide for mastery of standards whether in a virtual, in-person, hybrid, or learning packet situation. Continuation of learning during closures will help in our efforts to close the achievement gaps among the differing populations of students; maintain a high graduation rate; and provide our students with opportunities to be post-secondary ready. Another district goal is to maintain constant communication with students during in-person instruction, hybrid instruction, Zoom sessions, and Google Classroom. Ensuring effective communication with all students creates a culture of trust, increases engagement, and improves productivity. This leads into our district goal of maintaining and supporting the well-being of our students focusing on physical, social, intellectual, and emotional factors. By targeting the well-being of our students and connecting it to our continuation of learning plan, our students' academic performance, behavior, mental health, and social integration will improve. Another district goal is meeting our students' nutritional needs during short-term and long-term school closures. We plan to accomplish this as we have in the past through meal pick-ups at school sites and through bus and van deliveries to students' homes. We are committed to the healthy development of our students and want them prepared to learn and grow.
