

Accessing Your Old Account After Migration

The email account that you had prior to the migration still exists, but it had to be renamed as part of the migration process. Users will be able to access this data through the end of the school year, but it is highly recommended that you move what is needed **prior** to that time.

To access your old account, use the following user information:

Username: <username>-<district>@staffkyschools.onmicrosoft.com

Password: <Password is what it was at the time of your migration>

Example (Staff):

Primary username: first.last@whitley.kyschools.us

Renamed username: first.last-whitley@staffkyschools.onmicrosoft.com

Example (Student):

Primary username: first.last@stu.whitley.kyschools.us

Renamed username: first.last-stu.whitley@staffkyschools.onmicrosoft.com
